3. Motorcycle Operator Restrictions

In July 2008, a change was made to the Driver License Division rule R708-10-4 which enumerates restrictions that can be placed on a driver license. Prior to the rule change there was a single restriction for motorcycles of 90cc or less. The rule change added two restriction classes: (1) motorcycles of 249cc or less, and (2) motorcycles of 649cc or less. The Administrative Rules Review Committee requested that the Transportation Interim Committee look at whether the new restriction classes are in the best interest of the citizens of the state and whether these types of restrictions should be established in statute rather than state agency rule. The matter was considered by the Committee at its October 2008 meeting. At this meeting, the Committee voted to allow time for data to be collected on the impact of the new restrictions and take up the issue during the 2009 Interim.
